May 21, 2018

Dear Resident:

The Monroe County Road Commission has contracted with E. R. Zeiler Excavating, Inc. for the Storm Sewer and Road improvements in the Indian Acres subdivision.

Starting June 4<sup>th</sup> you will experience intermittent road closures during the day and throughout the project area. Indian road will be closed to through traffic from Sterns Rd to Apache Trail. The closure of Indian Rd will be in-place for nearly the entire length of the project, so all residents that normally use this roadway will need to seek an alternate route. Additionally, Apache Trail will be closed to through traffic from Indian Road to the west for a period of time. Residents with driveways within these areas of Apache Trail and Indian Road will have access to their homes at all times with the exception of daytime work in their immediate area. Affected residents will be notified on an as needed basis as to any changes to their individual access point.

If you have questions or concerns please email them to [astreicher@erzeiler.com](mailto:astreicher@erzeiler.com). Please put "Indian Acres SAD" in the subject line and we will add you to the email list when we send out updates on the project.

Your patience and cooperation during this improvement to your community is greatly appreciated.

Thank you,

E. R. Zeiler Excavating, Inc.
